Talence · Driving licence (B)

SKILLS

Infra & cloud
Kubernetes, Terraform, OpenTofu, Ansible, Docker, AWS, OVHcloud

CI/CD
GitLab CI, GitHub Actions, Jenkins, SonarQube, ArgoCD, Nexus

Languages
Python, PHP, Java, Bash, Node.js

Frameworks
Symfony, Drupal, NestJS, Angular

Tools
Linux, Git, MySQL / MariaDB

CERTIFICATIONS

AWS Certified Solutions Architect – Associate
2025

Opquast
2024

EDUCATION

EPSI Bordeaux
Bordeaux (33)
2017 – 2019

DAWIN professional bachelor's
IUT de Bordeaux (33)
2016 – 2017

DUT Informatique (two-year technical degree in Computer Science)
IUT du Limousin (87)
2013 – 2016

LANGUAGES

French
Native

English
TOEIC 855 / 990

INTERESTS

Homelab and self-hosting
Proxmox, OpenTofu, Pangolin

Board games

Table tennis
Ping Tour host at FLIP (Parthenay), 2013-2015

TV series

Sylvain MÉTAYER

Backend & DevOps developer

At onepoint in Bordeaux since 2017. I enjoy everything about backend, DevOps, CI and infrastructure, and I share what I learn at conferences.

EXPERIENCE

onepoint — Bordeaux (33) — 2017 – present

Developer, permanent contract — 2019 – present

- Ansible, Centreon monitoring, SQL and work with the HDS-certified host for the GIP ORU Occitanie.
- Kubernetes infrastructure for Châlons-en-Champagne (Rancher, Ansible).
- Managed Kubernetes on OVHcloud (Terraform, ArgoCD, GitLab CI) for the projects of onepoint's publishing unit.
- New features for a flex office application (Java, Quarkus, Angular) and mentoring of junior developers.
- Concert venue website (Angular, PHP, NestJS) on AWS (Kubernetes, Terraform, Jenkins), handling hundreds of thousands of concurrent connections.
- Set up and documented a software forge for the French National Housing Agency (Anah) (Jenkins, Nexus, SonarQube, GitLab CI).
- BNPPRE Drupal intranet and a daily import of hundreds of thousands of rows.

Work-study contract, EPSI Bordeaux — 2017 – 2019

- Maintenance and new features for Bureau Veritas' websites, including the Symfony 2 to 3 migration (Symfony, Angular).
- Drupal websites for the Nouvelle-Aquitaine Region, shared modules and automated deployment (Jenkins, Ansible).

Atos — Pessac (33) — 2016 – 2017

Work-study contract, DAWIN professional bachelor's degree — 2016 – 2017

- Built a GDPR personal data mapping tool supporting multiple RDBMS, as part of a team of 3 work-study students. Developed in Python 3.

NextMedia — Clermont-Ferrand (63) — 2016 – 2016

DUT internship — 2016 – 2016

- Developed the first version of a release management tool (Symfony 2) for the company's flagship product (Quizzbox) and set up automated deployments with Capistrano.
